RE: Docket # 98N-1038

Dear Sirs:

I am writing in regards to the current issue of irradiated food. I am requesting that mandatory labeling of all irradiated food be implemented and made into law. I am requesting that clear & concise labeling be used to address all irradiated foods & that the use of a Radura symbol be used.

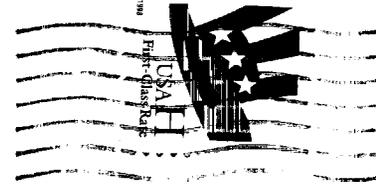

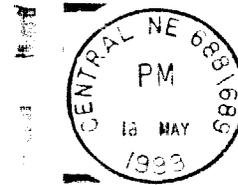

In addition, all ambiguous & arbitrary labels such as "cold pasteurization" and "electronic pasteurization" should not be used for labeling because they are deceptive "double-speak".

Any absence of irradiation labeling is misleading to the public due to changes in food that is irradiated. Consumers have the right to know if food they consume is treated by irradiation.

Sincerely, Linda Dugan 1102 N. Hastings C 2980  
Hastings, Ne 68901
